GREENS CALL FOR A NATIONWIDE BAN ON GREYHOUND RACING

NSW has taken the historic step of banning greyhound racing, and the ACT is set to follow.

Now the ban must be extended to all states to ensure that dogs are not simply shifted from one state to another.

Our campaign is advocating for the nationwide shutdown of the greyhound racing industry, adequate funding for the rehoming and adoption of greyhounds and for a just transition for workers.

The time to act is **now**.

Visit our website to find out how you can help the campaign in your state:
